

ScrynCard — Scratch & Gift Cards

- A digital platform that enables mobile airtime and data distribution through physical scratch cards. We're also a business card – the front of every ScrynCard proudly displays your hotel's logo, phone numbers, website, or event details.
- Whether you run a hotel, plan weddings, manage a company, or host events, you can order custom cards in different denominations (airtime or data).
- Hand them out to your guests, staff, or customers – they redeem online in seconds, no app, no sign-up.
- You get a dashboard to see exactly who redeemed, when, and where. It's giving, tracking, and advertising – all in one.

Who Can Use ScrynCard

- **Hotels & Resorts** — Welcome gifts, loyalty perks, and guest surprise tokens that carry your logo and contact info.
- **Weddings & Planners** — Memorable attendee giveaways tied to your event — useful and shareable keepsakes.
- **Corporates & Teams** — Employee rewards, client thank-you gifts, and launch swag that track engagement.
- **Events & Organisers** — Conference kits, competition prizes, and activation items that drive immediate delight.
- **Campaigns, NGOs & Governments** — Subsidies, engagement incentives, or public-health top-ups with full distribution tracking.
- **Phone Stores & Retailers** — Instant airtime bonuses bundled with purchases — a clear sales differentiator at point-of-sale.

In short: anyone who wants to give real value, create repeat branding, and measure impact.

How to Order — Fast, Branded, Flexible

- **Sign up** — Register your organisation on our platform.
- **Create your order** — Pick denominations (₦200–₦5000, 1GB–10GB) and how many you need.
- **Brand your cards** — Upload your logo, message, and front-face contact details.
- **We email you** — We'll send a payment request with our bank details or card link.
- **Pay & get login access** — Once we confirm your payment, we email your dashboard login credentials.
- **Track from day one** — Log in immediately to monitor your order and all future redemptions.

Redeem Your Gift

Complete the process in three simple steps

Verify Your Card

Enter the serial number and card code from your scratch card

Serial Number

SN-9FDFJD

9/9 characters

Card Code

CJD-D93D-X30D-K293

18/18 characters

Verify Card

How Recipients Redeem — 6 Simple Steps

- **Verify Your Card** — Enter the serial number and card code from your scratch card.
- **Enter Your Details** — Provide your phone number and select your preferred network (MTN, Airtel, Glo, 9Mobile).
- **Instant Credit** — Receive your airtime or data in under 5 seconds with SMS confirmation.

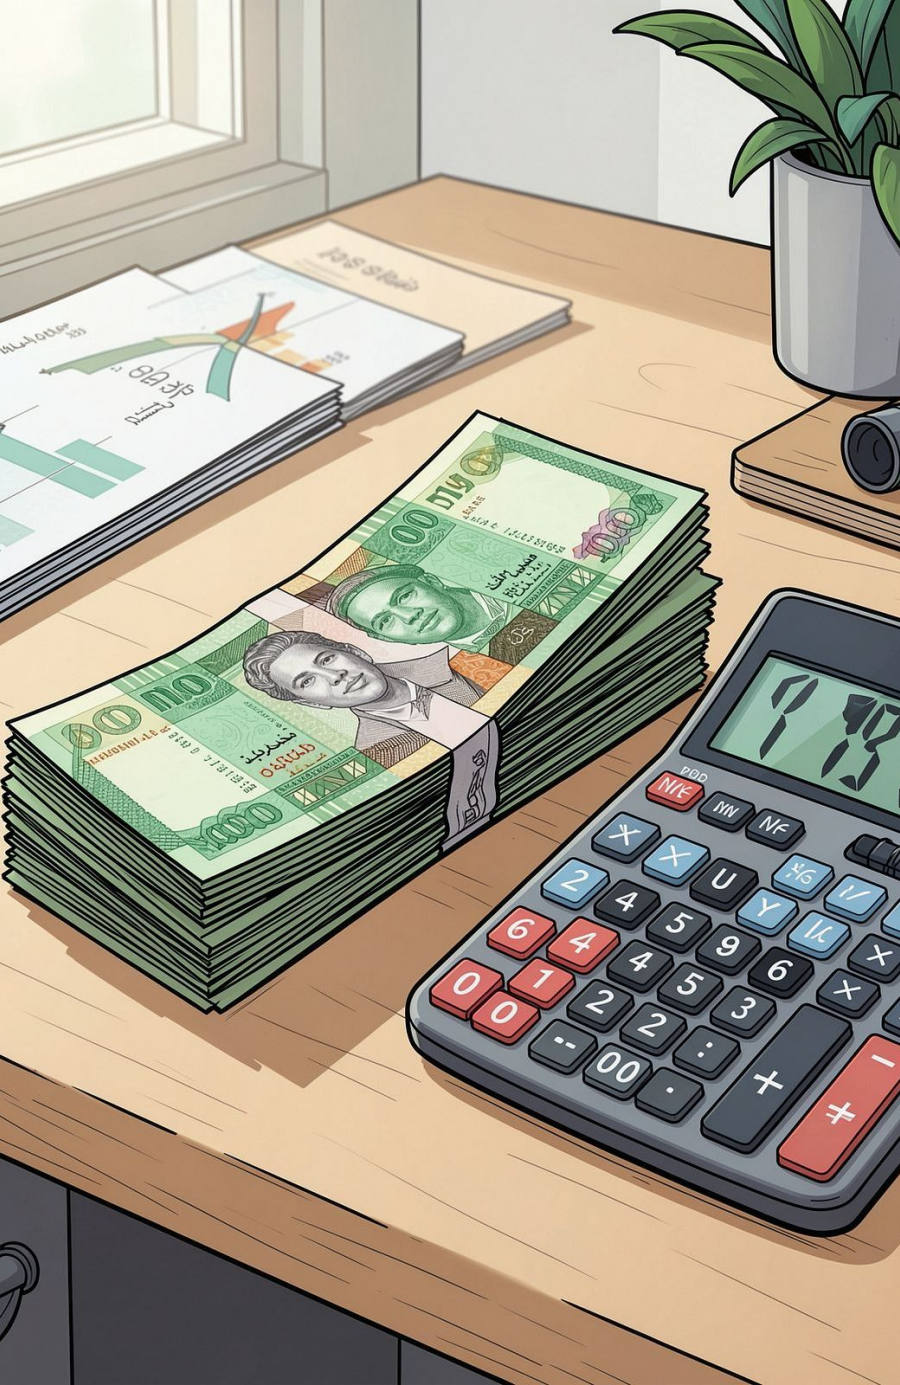

Redemption requires only a browser and a phone number. Our engine validates codes, runs lightweight fraud checks, auto-detects MTN/Airtel/Glo/9Mobile, and delivers airtime or data in under 5 seconds — SMS confirmation included.

Dashboard — Actionable Data & Controls

- **Live Redemptions** — Real-time counts, timestamps, and network breakdowns so you can see impact as it happens.
- **Geographic Heatmap** — Visualize where cards are redeemed to tailor future campaigns by location.
- **Fraud Alerts & Health** — Automated flags, system monitoring, and quick resolution tools keep campaigns secure.
- **Reporting & Exports** — CSV/PDF exports, scheduled reports, and ROI summaries for campaign review and accounting.

Both issuer and super-admin dashboards are secure, mobile-friendly, and permission-controlled.

Revenue Model & Investment

- **Conservative Example** — $20 \text{ businesses} \times 2,000 \text{ cards/month} \times \text{₺}200 \text{ fee} = \text{₺}8,000,000/\text{month} \rightarrow \text{₺}96,000,000/\text{year} (\sim \$60,000 \text{ USD}).$

Startup Costs

Domain (scryncard.com)	₺15,000
VPS Hosting (scalable)	₺250,000
Card Printer & Materials	₺400,000
Marketing & Launch Ads	₺500,000
Total	₺1,165,000

The projection shows recovery of initial costs within the first week of full operations under conservative sales assumptions.

Impact & Benefits — Why It Works

- **Brand Longevity** — Cards remain in wallets and on desks as lasting reminders of your business and contact details.
- **Organic Reach** — Recipients post about free airtime/data on social platforms — authentic word-of-mouth that drives awareness.
- **Instant Delight** — The fast "wow" of instant credit builds positive associations and repeat business.
- **Transparent Tracking** — Every redemption is logged — clean data for audit, insights, and ROI measurement.
- **Social Good** — Connectivity supports education, commerce, and community — your spending becomes impact.

Zero barriers to redeeming, high emotional value, and measurable business outcomes — a simple tool with outsized returns.

Conclusion & Next Steps — Ready to Roll

- **Production-Ready** — Our frontend, security, and dashboards are production-ready. Remaining work: integrate final payment gateway and telecom APIs — estimated 4-week sprint to go live.
- **Security First** — We prioritize security, PCI-compliance for payments, and reliable telecom delivery across MTN, Airtel, Glo, and 9Mobile.
- **Repository** — View our technical details and code on GitHub: <https://github.com/KabriAcid/scryncard/>

Let's talk numbers and bring ScrynCard to your guests, customers, and communities.
